

# iOS iPad/iPhone: ISE Authentication to BYUH-Secure

1. Select Settings> Select Wifi > Select **BYUH-Secure**.

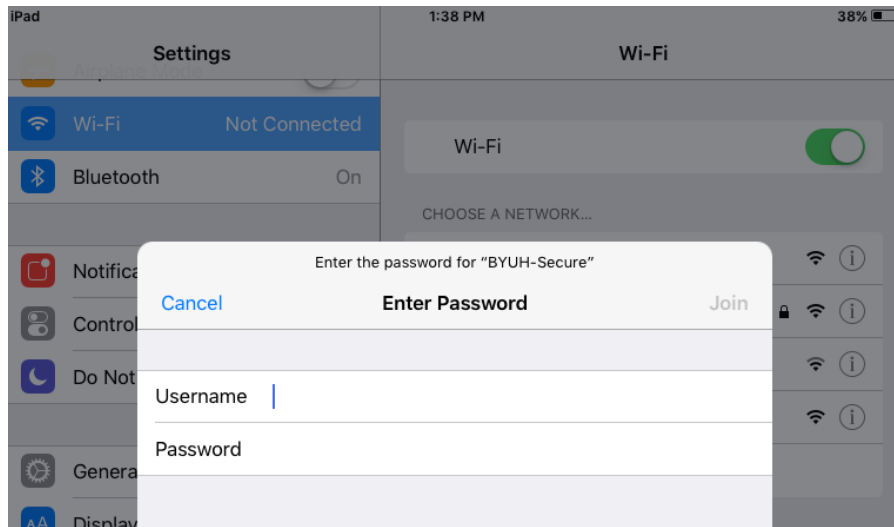

2. Select Forget this Network.

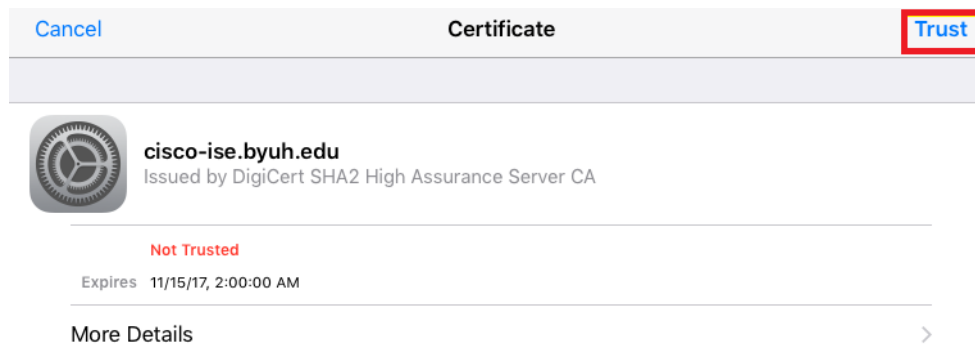

3. Select Forget.

4. Now try to connect to **BYUH-Secure**. You will be prompted to enter your Cesnet ID, then select JOIN.

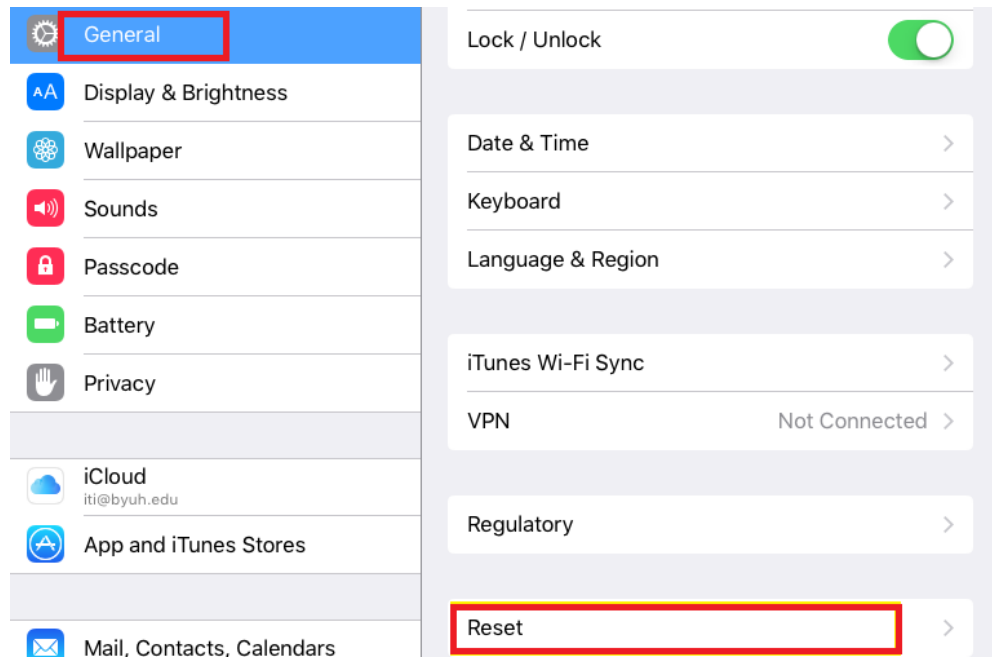

5. A certificate will appear, Select Trust.

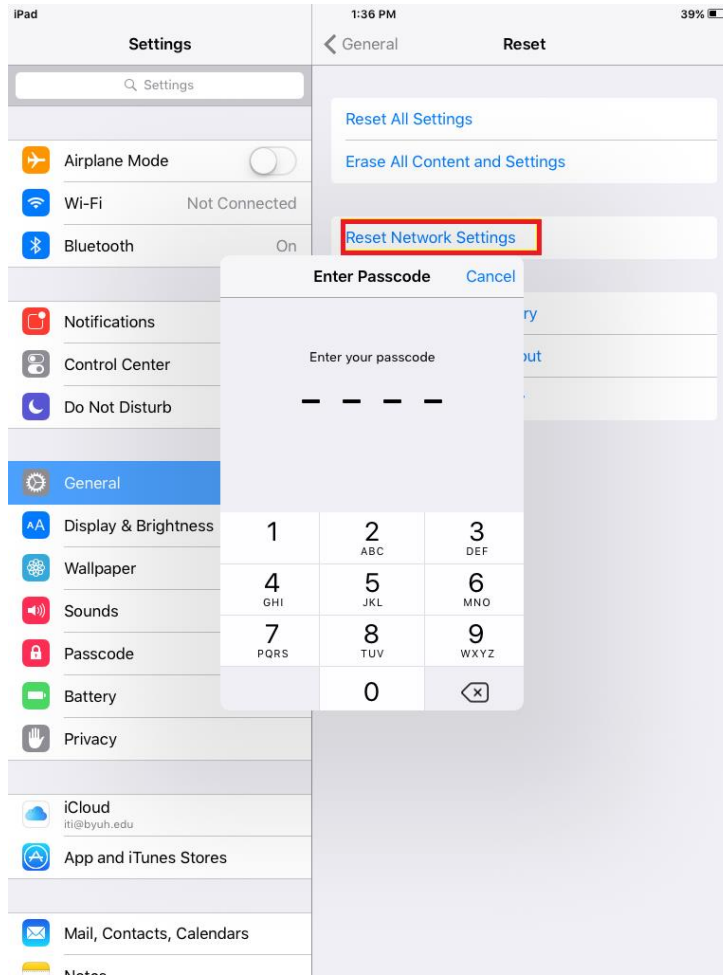

**If you get CONNECTED, STOP HERE.**  
**If you did not get connected, please start this process again and continue to steps 6 thru 11.**

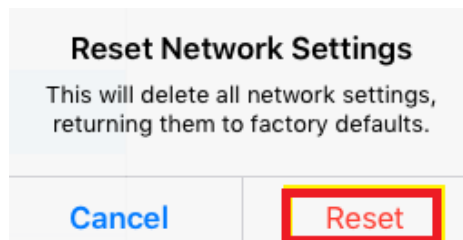

6. Select General > Scroll down to Reset.

7. Select Reset Network Settings, and you may be asked to enter your passcode.

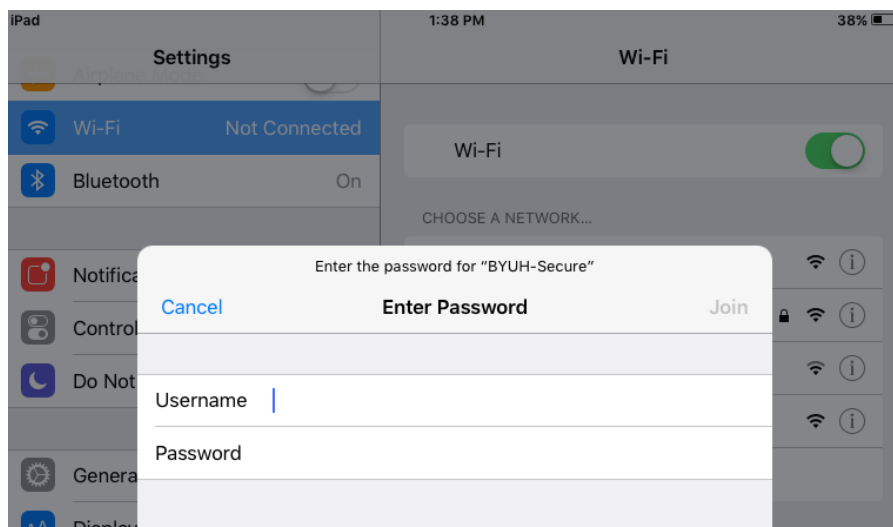

8. Select Reset.

9. Your iPad will then reboot.

10. Select Settings> Select Wifi > Select BYUH-Secure > You will be prompted to enter your Cesnet ID, then select JOIN.

11. A certificate will appear, Select Trust.
