These instructions walk you through downloading Microsoft Word. All Microsoft applications follow the same downloading process.

- 1. Go to the app store and search for Office 365.
- 2. Select which Microsoft application you would like to download and click install.

3. Wait for the application to download and then select open.

4. Swipe through the introduction pages until you can select the Get Started button, and click.

5. Enter your BYUHNetid@byuh.edu for the email address.
